

CarInsurance.com Unveils Cheapest New York Car Insurance

With sky-high gas prices, consumers can save on driving costs by finding the least expensive coverage options available in their state

Foster City, CA – April 26, 2022 – [CarInsurance.com](https://www.carinsurance.com), a one-stop online destination for car insurance information, this week released a list of auto-insurance companies offering the cheapest car insurance in New York. With state gas prices at more than \$4 per gallon, drivers looking to save money could offset high fuel costs with lower car insurance premiums.

CarInsurance.com's rate analysis finds Progressive has the cheapest car insurance rates in New York. The insurer offers a full coverage policy with an average premium of \$69 per month.

The average cost of car insurance in New York is about \$173 per month for a full coverage policy. A full coverage policy includes liability insurance--required by law in most states--and optional coverage such as comprehensive and collision insurance, which comes with a deductible.

In addition to Progressive, American Family, Geico, Erie Insurance and Allstate also offer low car insurance rates in New York:

| Insurance Company | Average Monthly Rates: Full Coverage |
|-------------------|--------------------------------------|
| Progressive | \$69 |
| American Family | \$94 |
| Geico | \$115 |
| Erie Insurance | \$136 |
| Allstate | \$151 |

“Remember that insurance companies also offer cheaper policies for certain drivers,” says John McCormick, editorial director, CarInsurance.com. “And rates vary based on a number of factors such as a driver’s age, location, driving record, credit score, driving habits, and type of vehicle.”

Drivers in certain categories could see significant savings.

For instance:

- Married drivers pay 10% less than single drivers
- New York drivers with clean records pay 33% less than drivers with a DUI
- New York drivers in their 20s pay 50% lower rates for insurance than 16-year-olds

Car insurance companies set rates based on many factors. One of the most important is where a person lives. Companies look at the number and cost of car insurance claims in an area to determine how risky it is to insure a driver.

The city with the lowest auto insurance rates in New York is Corning, at \$1,305 per year. Insurance companies use data about thefts, collisions, and vandalism to decide how likely it is for one of these things to happen in a particular city. Insurers also consider driving records, the type of car driven, and a car's age to determine premiums.

Below is a list of cities in New York with the lowest auto insurance rates:

| City | Avg. Annual Premium |
|----------------|---------------------|
| Corning | \$1,305 |
| Gang Mills | \$1,312 |
| Campbell | \$1,320 |
| Elmira Heights | \$1,325 |
| Wellsburg | \$1,329 |

McCormick is available for comment.

About CarInsurance.com
